BROXTOWE WAPENTAKE: PART II.

London:

ISSUED TO THE SUBSCRIBERS BY PHILLIMORE & Co.,
124, CHANCERY LANE.

1905.

P R E F A C E .

THE present is the eighth volume of Nottinghamshire Parish Registers, and includes some further marriage registers in Broxtowe Wapentake. Thanks are due to the parish clergy who have permitted their registers to be printed. The marriages in the present volume have been transcribed by Mr. T. M. Blagg, Rev. J. R. Burton, Mr. George Fellows, Mr. S. Pursglove, Mr. J. T. Radford, and Mr. A. Stapleton.

The entries, as before, have been reduced to a common form, and the following abbreviations adopted:—

w.=widower *or* widow.

s.=spinster, single woman,
or son of.

b.=bachelor *or* single man.

d.=daughter of.

p.=of the parish of.

co.=in the county of.

dioc.=in the diocese of.

lic.=marriage licence.

f.w.k=frame-work-knitter.

The spelling of the surnames is in all cases the same as in the original registers, but the Christian names have in most cases been translated or modernised.

1379209

It must be remembered that these printed abstracts of marriage registers are not "evidence" in the technical sense. Certified copies must still be obtained when evidence of a marriage is needed for proving a pedigree in a court of law, or when registering it at Heralds' College. For such certificates application must be made to the clergy in charge of the original registers.

It should be borne in mind that previous to 1752 the years were calculated as beginning on the 25th of March, so that a marriage entered as having taken place on, say, the 20th of February 1624, really occurred on that day in 1625 according

to our reckoning. This is sometimes expressed by "162 $\frac{4}{5}$ " or 1624-5.

No index is issued with the volume, as the Editors believe that it is better to print as many registers as possible, and to defer index-making until the registers still in manuscript are placed beyond the risk of loss.

The next volume is already partly printed, and will contain a further portion of the parishes in Broxtowe Wapentake.

Volume X will deal with parishes in the south part of the Wapentake of Thurgarton.

Nottinghamshire Parish Registers.

Marriages at Cossall.

1663 to 1812.

NOTE.—Vol. I is a thin parchment book, measuring about 12 $\frac{3}{4}$ in. by 7 $\frac{1}{2}$ in., bound in vellum. The first few pages, including the covers within and without, have been used for later entries; and four leaves of different size and shape have been inserted at the beginning. The entries are not tabulated. The writing is much decayed, and in many places unreadable.

The earliest note is "A trew Register of all Publications Marriages Births and Burialls in the p'ish of Cossall Since the viiith of aprill anno dom'ni 1654."

In this volume there are some notes as to several briefs.

Vol. II is of well-preserved parchment, 8in. by 7 $\frac{1}{8}$ in. The end is filled in with the publications of banns.

Two other thin folio parchment volumes complete the Registers to 1812.

These Marriages have been transcribed by the Rev. R. Jowett Burton, of Stanton by Dale, by permission of the Rev. H. C. Russell, Rector of Wollaton.

Marriages at Trowell,

1570 to 1812.

NOTE.—Of the earlier Registers at Trowell, Vol. I consists of 66 leaves of parchment, measuring $13\frac{1}{2}$ by $5\frac{3}{4}$ inches, stitched in a parchment cover. It is much spotted and damaged by damp, and several leaves are loose. The following Memorandum is written on the flyleaf:—"In this booke is containyd the names of those that have beene maride, baptissed and buried from the firste yeare of the reigne of the Queenes moste excellent maiestie Elisabethe by the grace of god of England ffrance Ire[land] Queene, defender of the fayth, etc. untill this preasent, beinge the fortythe of her graces most happye Raigne and the year of our lord god 1598.

"NICHOLAS HALLAM } Rectores."
"THOMAS SCLACK }

There were two rectors, the parish consisting of two medieties. The date 1598 would, of course, be that in which the present Register was transcribed from the original paper book.

Entries of Marriages, Baptisms, and Burials are kept separate throughout this volume, and as those of Marriages come first, and do not begin until 1570, it is probable that the first leaf or leaves are missing. It is regrettable that so many entries are rendered wholly or partially illegible by damp. The whole volume contains entries of Marriages from 1570 to 1699, and of Baptisms and Burials from 1568 to the same date. A few pages from the end of the volume is a list of the Rectors of the two medieties from 1588 and 1577 respectively. This list has been copied and extended in the middle of Vol. III.

Vol. II consists of 28 leaves, all parchment except the two first, measuring $12\frac{1}{2}$ by $6\frac{1}{4}$ inches. They are stitched into a parchment cover. This volume contains Baptisms, Marriages, and Burials from 1700 to 1743.

Vol. III consists of 28 leaves of parchment, $12\frac{1}{4}$ by $7\frac{1}{2}$ inches, and contains Baptisms 1744 to 1780, Marriages 1744 to 1753, and Burials, 1744 to 1781. Some pages in the middle of the volume are devoted to parish matters and a list of Rectors.

Vol. IV consists of 39 pages of Marriages, written on paper, the remainder of the book being devoted to Banns. It measures $9\frac{1}{4}$ in. by 7 in., and contains Marriages from 1754 to 1790. The book is in good preservation and very legibly written. During the period of this volume Cossall seems to have been associated with Trowell.

Vol. V is a paper book in vellum cover, containing Marriages from 1791 to 1812.

Vol. VI contains Baptisms and Burials from 1781 to 1812.

These Marriages are printed by permission of the Rev. Canon J. D. Lewis, Rector of the parish, and have been transcribed by Mr. T. M. Blagg, who is responsible for the first, and Mr. Geo. Fellows for the remaining volumes.

Marriages at Stapleford,

1656 to 1812.

NOTE.—The registers of Stapleford previous to 1655 have long been missing. The existent volumes between that date and 1812 may be collated as follows:—

Vol. I. consists of 22 leaves of parchment measuring 13 inches by $6\frac{1}{2}$ inches, and contains entries of Baptisms from 1655 to 1701, Burials 1655 to 1703, and Marriages from 1656 to 1677.

Vol. II. consists of 19 leaves of parchment measuring 12 by 6 inches, and containing entries of Baptisms from 1704 to 1738, Burials from 1705 to 1738, and Marriages from 1704 to 1738.

Vol. III. consists of 23 leaves of parchment, measuring $14\frac{1}{2}$ by 7 inches, and one leaf of paper, bound in parchment boards, and containing entries of Baptisms and Burials from 1738 to 1772, and Marriages from 1739 to 1756, and also duplicate entries of many weddings after that date, which are contained in the fourth volume.

Vol. IV. is a quarto paper book in parchment boards, and contains Marriages from 1756 to 1791.

Vol. V. is a folio paper book in parchment boards, and contains Marriages 1791 to 1812, Baptisms 1803 to 1812, and Burials 1810 to 1812.

Vol. VI. consists of 53 leaves of parchment measuring $12\frac{1}{2}$ by 7 inches, and containing entries of Baptisms and Burials from 1772 to 1809.

These Marriages have been transcribed by Mr. J. T. Radford, of Nottingham, and are now printed under his supervision, by permission of the Rev. J. Holroyde, M.A., Vicar of Stapleford.

Marriages at Strelley,

1665 to 1812.

NOTE.—The Marriages at Strelley are recorded in three volumes. Volume I, parchment, contains 25 leaves sewn together in covers of parchment; size $11\frac{1}{2}$ in. by 7in. A few entries in 1666 and 1667 are in Latin, but all the others are in English, though in some places illiterate. Each scribe appears to have chosen his own pages, but a continuous record is easily obtained. The earliest entry is January 31, 1665, and the latest December 1, 1711. On the cover has been written, evidently at a later date, "Strelley General Register, 1654 to 1711." Baptisms and Burials are recorded in the same volume.

Volume II, parchment, contains 24 leaves sewn in parchment covers, size $11\frac{1}{4}$ in. by 8in. It contains Baptisms, Marriages and Burials. The first Marriage entry is April 7, 1714, and the last April 8, 1754. On the first cover is written "New Register bought by Philip Richards, Churchwarden, March, 1712. Baptisms from 1712 to 1780; Burials, 1712 to 1790; Marriages, 1712 to 1754."

Notes respecting the appointments of Parish Clerks, Benefactions to Strelley Church, and Briefs, are written on the insides of the covers. The Terriers for 1735, 1743, 1764 and 1770, written on loose sheets of paper, are placed in this volume. The best sides of the parchment have been used first, afterwards the inferior or under sides. The reader is requested, in several places, to turn 16 leaves backward, or four leaves backward, &c. There are five pages of this inferior or underside skin left blank.

Volume III contains Marriages only from 1755 to 1812. It is of thick paper, and is strongly bound in vellum, size $9\frac{1}{2}$ in. by 7in. There are 88 leaves, but only the first 34 have been used. It also contains Publications of Banns, and the Marriage entries are signed by the officiating Minister, the contracting parties, and the witnesses.

The following extracts have been made by Mr. S. S. Pursglove, of Strelley, and are now printed by the permission of the Rev. B. Williams, Rector of Strelley and Bilborough.

Marriages at Awsworth,

1756 to 1812.

NOTE.—Awsworth is, or was, a chapelry, and consists of the small detached portion of Nuthall parish lying close to the Derbyshire border, near the modern town of Ilkeston. It has a brick chapel, dated 1746, now the chancel to the present nave, which was added in 1901.

The only Register previous to 1813 is a small quarto paper book, containing some entries of Baptisms, Burials, and Marriages from 1756 to 1801, only six of the entries being Marriages. These have been copied by Mr. T. M. Blagg, by permission of the Rev. Vincent J. Higgins. Other Awsworth entries must be looked for among the Registers of Nuthall, the parent parish.

Marriages at Greasley,

1600 to 1812.

NOTE.—The ancient parish of Greasley, during the period covered by these extracts, was very extensive, containing between six and seven thousand acres of land, and including the six hamlets and constablewicks of Brinsley, Kimberley, Moor Green, Newthorpe, Watnall Cantelupe and Watnall Chaworth. Within its limits are also Babbington Moor, Beauvale, Beggarlee, and Hempshill Hall (detached). Brinsley and Kimberley are now cut off from Greasley parish.

The earlier volumes of Greasley Registers are eleven in number, as follows:—

Vol. I consists of forty-eight leaves of parchment, measuring $13\frac{3}{4}$ ins. by $5\frac{1}{2}$ ins. (one half the last leaf being cut away), stitched together in a parchment cover, and is in places faded and damaged. The first two pages are occupied by what is apparently a list of parishioners or communicants. The third and fourth pages are occupied by memoranda of church collections and other parochial matters. The fifth page is filled by two agreements relating to seats in Greasley church, dated 1636 and 1638. The sixth page is blank. Further memoranda occur on the seventh page, and the eighth is practically unused. The book contains entries of Baptisms 1600-1653, Burials 1600-1650, and Marriages 1600-1642.

Vol. II consists of fifty-five leaves of parchment (and a fragment of a fifty-sixth, containing two entries) measuring 13 ins. by 6 ins., stitched together in a parchment cover. It contains entries of Baptisms (in many cases births as well) 1653-1707, Burials 1653-1709, and Marriages 1652-1709.

Vol. III is incomplete, consisting of fourteen leaves of paper (a section is cut out of the last one) measuring 12 ins. by $7\frac{3}{4}$ ins., every leaf entirely detached, and no cover. It contains entries of Births and Baptisms 1712-1730, Burials 1712-1728, and Marriages 1712-1730. No entries of any kind are preserved during the period 1722-1726, the corresponding leaves being lost.

Vol. IV consists of fifty-six leaves of parchment, measuring $12\frac{1}{2}$ ins. by 8 ins., stitched together, and is an uncommonly well-written volume, mostly in a fairly large hand. The cover is missing. It contains entries of Baptisms 1730-1773, Burials 1730-1771, and Marriages 1730-1754.

Vol. V is a book of printed paper forms (two on each page, one side of paper only used), the leaves measuring $8\frac{3}{4}$ ins. by $7\frac{1}{2}$ ins., and strongly bound in brown leather. Ninety-eight pages are devoted to Marriages, in addition to two otherwise blank pages following. The opposite end of the book consists of forms for banns, of

which, however, less than one-half have been filled in. The volume contains entries of Marriages only, 1754-1766.

Vol. VI consists of thirty-nine ruled leaves of paper, measuring $14\frac{1}{2}$ ins. by $9\frac{1}{2}$ ins., double lines of red ink dividing each page into three divisions, serving for that number of entries. The volume is bound in white leather, and contains entries of Marriages only 1766-1780.

Vol. VII is a plain paper book, the leaves of which measure 13 ins. by 8 ins., and is bound in white leather. It contains entries of Marriages only 1781-1791. The first twenty-four leaves contain three entries on each page. The two leaves following have only two entries on each page. Then follow twenty leaves, with two entries to the page, but written on one side of the paper only. The rest of the book contains banns.

Vol. VIII is a book of printed paper forms, with a printed title page (applicable to any church), the leaves measuring $14\frac{1}{2}$ ins. by $9\frac{1}{2}$ ins., and is bound in white leather. There are forty-six leaves, with four entries on each page. The volume contains entries of Marriages only, 1791-1805.

Vol. IX is a large folio book of many leaves, measuring 17 ins. by $10\frac{3}{4}$ ins., and contains entries of Marriages only, 1805-1812, strongly bound in brown leather. There are five printed forms to each page. Only the first nineteen leaves have been written on.

Vol. X is a plain paper book of eighty-eight paper leaves, measuring 16 ins. by $8\frac{3}{4}$ ins., bound in white leather, and containing entries of Baptisms and Burials 1772-1803.

Vol. XI is a plain paper book of many leaves, measuring 16 ins. by $9\frac{1}{4}$ ins., and strongly bound in brown leather. Fourteen leaves at one end contain entries of Baptisms 1804-1812. Six leaves at the other end contain entries of Burials 1804-1812.

These Marriages have been transcribed by Mr. A. Stapleton, of Nottingham, and are now printed under his supervision by permission of the Rev. Rodolph, Baron Von Hube, Vicar of Greasley.
